How to use the Have It All FB groups to coach & build your business?

- Use the have it all dream team for everyone showing interest but not yet in Isa, this is a watching group and our welcome group. <https://www.facebook.com/groups/1456198594632509> and add people to this FB group AFTER you have had that initial conversation with them and they have watched a video off of www.becauseyoucanhaveitall.com
- be SURE that you have added your transformation story here <https://www.facebook.com/groups/1464629603772640/> to this Facebook group and have your team do the same so that all of those who are in this group still “thinking about getting started” will SEE this file as new transformations are added weekly It’s a great way to let this FB group “drip” on these people for you. So make sure you are placing everyone in these two groups after your first conversation.

Welcome people to the Have It All Dream Team group, after they have ordered and use for what is listed below. <https://www.facebook.com/groups/1456198594632509/> Have It All Team Page

The Have It All Business: <https://www.facebook.com/groups/1456198594632509/> add all people to this FB group AFTER they have ordered their first 30-day system
- ensure on your welcome email/letter/FB message/text that they know the first go-to resource for all things “business” related is www.isagenixbusiness.com
- all special calls and upcoming events will be shared in this FB group

- ALL business education is shared on this page
- Make sure you have sent everyone to www.becauseyoucanhaveitall.com and walked through associate log in support pages along with their back office.

Please note that this is an evolving process and the files will be “cleaned up” and all put into google docs for easy accessibility for you to share with your teams.

THE MORE WE ALL COME TOGETHER AND COACH OUR TEAMS WITH THESE MAIN FB GROUPS ONLY - THE MORE SUCCESS AND DUPLICATION YOU WILL SEE IN YOUR TEAMS!

- my tip to help you and your team as you are coaching them - tell them that in order for you to answer a question or see a post that they want you to respond to & help you with THEY MUST “tag” you on that post.
- o then as a leader you can share the answer or ask another leader to help with the answer!
